Assessment Schedule – 2018

Digital Technologies: Demonstrate understanding of human computer interaction (91886)

Assessment Criteria

Achievement	Achievement with Merit	Achievement with Excellence
Demonstrating understanding of human computer interaction involves: • describing the role of a chosen interface for a specified task • identifying and describing FOUR examples from the chosen interface to show how the examples illustrate usability heuristics.	Demonstrating in-depth understanding of human computer interaction involves: • evaluating the chosen interface in terms of the usability heuristics.	Demonstrating comprehensive understanding of human computer interaction involves: • comparing and contrasting the chosen interface with another in terms of their use of heuristics • using the comparison to suggest improvements based on the heuristics.

Evidence

N1	N2	A3	A4	M5	M6	E7	E8
Demonstrates very little understanding.	Report is produced by the candidate but demonstrates little understanding and part of the response may be missing.	Describes and identifies as required to show understanding. Some descriptions may be weak or partial.	Identifies and describes as required to show clear understanding.	Evaluates as required to show in-depth understanding. Some aspects of evaluation may be partial or weak.	Evaluates as required to clearly show in-depth understanding.	Compares and contrasts as required to demonstrate comprehensive understanding. Some aspects may be partial or weak.	Compares and contrasts as required to clearly demonstrate comprehensive understanding.

N0 = No response; no relevant evidence.
